

# Kingaroy Refrigeration Airconditioning

Kingaroy Refrigeration are your local air conditioning experts. We have been servicing the South Burnett and surrounding areas for 28 years.

You may not know it but your air conditioner could be harbouring dangerous mould, mildew, fungi and bacteria which could be harmful to you and your family.

A dirty air conditioner is not only a health hazard but is also costly to run. Having your air conditioner thoroughly cleaned and sanitised will reduce health hazards, improve running costs and significantly promote the life of the unit.

Dirty Air Conditioner

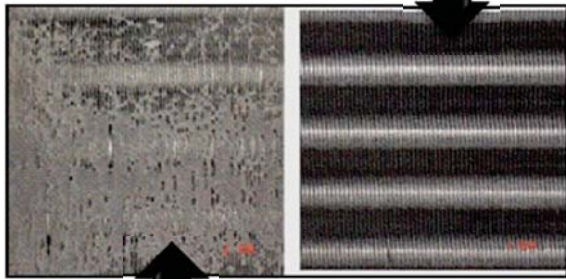

Poor Performance  
High Running Costs

Health Hazard

AFTER

BEFORE

Kingaroy Refrigeration can now clean and sanitise your indoor unit on site using our new pressure cleaning system. Call us to discuss your service needs
